TR_m3_Example NPC 3951, 4109, 15484 [0, 0, 11] (Fort)

--	--	--

A screenshot of a presentation software interface. The main area is a large white rectangle representing a slide. At the bottom, there is a control bar. On the left of this bar is a small thumbnail of the current slide. To its right is a horizontal scroll bar with a slider. Further right is a color palette consisting of two rows of colored squares. The top row includes black, white, and various shades of gray. The bottom row includes a wide range of primary and secondary colors. The interface has a simple, functional design with a light gray background for the control elements.

If you want the NPC to wander, set a desired distance per day

If you set duration in hours=24, the NPC will wander about non-stop

Distance = 0 means the NPC will stand still

Idle Chances denote which idle animations the NPC will display while standing still; see resources for the 8 possible animations

If you want the NPC to offer services, one way to do so is to change the class to a services class; pawnbroker, priest service,

smith, etc...

Note that "Auto Calculate Stats" is selected

NPC
